

QUALITY, HEALTH, SAFETY & ENVIRONMENTAL POLICY

BLACK CAT ENGINEERING & CONSTRUCTION

WE, at Black Cat Engineering & Construction W.L.L. (BCEC) are committed to provide high standards of Quality in Design & Engineering, Procurement, Construction, Installation and Commissioning services by ensuring total customer satisfaction with required specifications, on time delivery by efficient utilization of available resources, safe working practices, conservation of resources, prevention of injury & ill health, protection of our environments, and to identify and manage risk.

WE will comply and implement the current applicable legal legislations & regulations and other requirements, in order to avoid all kinds of risk associated with our day to day business activities and to ensure our company's continuing operation.

WE shall adhere and continually improve the effectiveness of our Quality, Occupational Health & Safety and Environmental Management Systems in accordance with ISO 9001:2008, OHSAS 18001:2007 & ISO 14001:2004 requirements.

WE strongly believe that health, safety and environment are essential elements in all aspects of our business. Those in management positions, and indeed all employees, shall have responsibility for their moral and legal obligations for the safety of man, machine and environment.

WE are committed to promoting a positive HSEQ culture by providing the necessary resources, training & awareness programs. This will ensure that we are focused on continuing improvement of the effectiveness of our Quality, Health, Safety and Environmental management systems.

This policy will be displayed prominently at all work places and will be reviewed periodically.
